Copy of letter dated 18-3-1952 from the Secretary, South Kanara Village Industries' Association, Mangalore, addressed to the Government of India through the Government of Madras.

Dear Sir,

The South Kanara Village Industries' Association has been allotted 20 acres of land for agricultural education purpose. This Association has been working in the rural areas for the general betterment of the people and specialising in small industries allied to agriculture such as oil-crushing, bone-crushing, leather, spinning, weaving etc.

But in rural areas, agricultural development is the most basic need. For this the essential need is of trained workers of which there is a great dearth in our country. This Association, therefore, has a scheme for setting up an institution for training rural workers. The institute will have theoretical education together with practical and therefore experimental centres attached to it in cultivation, dairy, etc. Details of the scheme are attached herewith.

I am sure, you will agree with me that the major encouragement for such Centre has to come from the Government. May I therefore request you to be good enough to make available to this Association the necessary funds. A complete Budget for the same is also attached herewith. As the financial year is coming to a close, I hope you will sanction this amount immediately.

Thanking you,

Yours truly,

Sd/- General Secretary,
S.K.V.I.Association.

AGRICULTURAL TRAINING CENTRE:

The greatest need for any real rural development work is trained personnel. This is sadly lacking in our villages where even very elementary education is only just being introduced. Nor is it possible or feasible to get people from urban areas to fill this need. If agricultural development is to be undertaken on any appreciable scale, the youth of the villages should be trained in the new knowledge and technique that can bring improvement and wealth. It is for the purpose of starting such a rural training centre that the South Kanara Village Industries Association approached the Madras Government for a piece of land to locate the training centre with a practising farm for practical experience. Training would be given in the following subjects:-

(1) AGRICULTURE:

i. Crop planning and land management.

ii. Ploughing, levelling, sowing, irrigation, harvesting, thrashing, storing and marketing.

iii. Introduction and selection of better yielding crops.

iv. Rotation of crops.

v. Saving and protection of crops from insects, locusts pests and other diseases and wild animals.

vi. Multiplication of seed of improved varieties.

vii. Checking of soil erosion.

viii. Utilisation of village waste, cow dung etc. and formation of compost.

ix. Introduction of fertilizers and chemical manure.

x. Cultivation of green manure.

xi. Reclamation of waste lands.

xii. Fodder crops.

xiii. Vegetable production of improved seeds.

(2) ANIMAL HUSBANDRY:

i. Instruction in breeding of better quality animals by maintaining stud animals.

ii. Care and sanitary conditions for animals.

iii. Construction of proper cattle sheds both for better protection of the animals as well as for conserving the cattle dung and urine for use as manure.

iv. Instructions in how to prevent animal diseases.

v. Treatment of diseased animals.

(3) HORTICULTURE:

i. Plantation of trees in the villages.

ii. Plantation of fruit trees.

iii. Training in principle of gardening.

iv. Protection of plants against diseases.

v. Improving the size and quality of available varieties of fruits.

(4) AGRICULTURAL ENGINEERING & IRRIGATION:

i. Teach how to construct small irrigation projects to save and conserve rain water.

ii. Facilitate pumping by attaching engines to pumps for ordinary surface wells.

iii. Construction of wells, tanks, channels, small dams and contour bunding.

iv. Manufacture of improved ploughs, seed drills spades, sickles, rollers for planking, cart wheels, chaff cutters, etc. and modification of modern implements to suit Indian conditions.

v. Training in tractor driving and repairs of tractor parts.

vi. Working of tube-wells.

vii. Working and repairing of lift pumps and oil engines.

viii. Working of pumps with electric power.

ix. Intensive training in the handling and supervising of tractors, tube-wells, lift-pumps, persian wheels and agricultural machinery.

(5) ALLIED OPERATIONS:

i. Dairy Farming.

ii. Poultry Farming.

iii. Bee Keeping.

iv. Sheep breeding.

v. Rearing of pigs.

vi. Fishery.

(6) CO-OPERATIVE AND SOCIAL WELFARE SERVICES EDUCATION:

i. Co-operative collective Farming.

ii. Co-operative Dairy Farming and Sheep Breeding.

iii. Co-operative Poultry Farming.

iv. Co-operative Seed and Manure Stores.

v. Co-operative Implement Supply Stores.

vi. Co-operative Forest Preservation.

vii. Co-operative Fruit and Vegetable Farming.

viii. Co-operative Cattle Breeding.

ix. Co-operative Distribution and Manufacture of Milk products.

x. Rural Electricity Co-operatives.

xi. Fishing Co-operatives.

SOCIAL WELFARE:

i. Community Recreation and Physical fitness programmes

ii. Fundamental education and liquidation of illeteracy.

iii. General, Social and Cultural activities.

iv. Women and Child Welfare.

v. Youth Welfare.

vi. Environmental planning and development.

vii. Unified and collective action for Grow More Food through voluntary services.

viii. Teaching Co-operation and Team work.

ix. Out-door games such as Kabbadi, Tug-of-war, football, volley ball, wrestling, weight-lifting, lifting barbells, running, jumping, mass drill, swimming, hiking.

x. Folk dances, film shows, music concerts, radio-listening, story listening, bhajans, dramas, etc.

xi. Repairs of thatch and tiles of roofs.

xii. General cleaning and white-washing of houses.

xiii. Repair of village foot-paths and streets.

xiv. Construction of kacha roads.

xv. Repairs of cattle sheds.

xvi. Digging of new manure pits.

xvii. Levelling and filling of holes and pits.

xviii. Cleaning of village compounds, lanes and streets.

xix. Washing of animals and holding of cattle shows.

xx. Disinfection of houses with D.D.T.

xxi. Improvement in rural sanitation, pit latrines, borehole latrines, trench latrines and bath rooms.

xxii. Construction of village schools and dispensary by voluntary efforts.

xxiii. Organisation of local social service squads.

(7) RESEARCH AND STATISTICS:

1. Fundamental research in agriculture, agricultural implements and animal husbandry.

ii. Vegetable breeding.

iii. Multiplication of improved seeds.

iv. Fruit Nursery.

v. Crop cutting survey.

vii. Growing of high yields varieties of Orissa, China and Madras paddy.

iii. Use of hand operating implements for threshing and shelling grains.

ix. Production of European type of vegetable seeds.

x. Research of oil-seeds, cotton and sugar-cane, etc.

TATISTICS:

i. Collection of reliable statistics.

ii. Crop cutting experiments.

iii. Statistics of average yield of food and non-food crops.

iv. Statistics of average of crops after crop harvesting and pre-harvest forecast of acreage.

v. Methods of estimating additional production during three years.

vi. Methods of eye estimates.

vii. Accurate method devised by conducting special crop cutting method.

RURAL DEVELOPMENT: South Kanara- Village Industries Association Mangalore-Institution for training of rural workers-Starting of-grant of financial aid-Report-

Ref: Government memo 22081(RW) I 52-3 dated 10-4-1952.

****

An extent of Ac. 21.20 in the belt area of the Mangalore Municipality in Derebail village was recently alienated to the S.K.V. Mangalore in G.O.Ms No 2887 Rev dated 3-11-1951. B.P.Mis No 1472/date 23-11-1951.

2/- The Association is a registered body. I enclose a report on the working of the Association for the period ending 30-6-1950.

38319

3/- I inspected the field selected for the location of the work shop and the sheds in the company of the Secretary of the Association. It is an elevated ground and the approach to it is now difficult on account of the steep climb. The Secretary informed me that plans have been drawn up to form a cart-track on the otherside of the hill where the climb is somewhat easier. The idea seems to be that the plot should be used for putting up buildings for training workers and for constructing workshops and sheds for some cottage Industries. Large funds will be required to carry ~~out~~ 143- out the whole scheme. A small beginning will perhaps be made no and the full scheme developed gradually. ~~An~~ Organisations with highly trained personnel would also be required to carry out successfully the whole scheme which covers a wide range of subjects.

A

4/- The Secretary informs me that the Government of India have already sanctioned to the Association a subsidy of Rs 30,000/- in their order No 10 Cof. Ind (6) /52 dated 26-3-52. It is learnt that the Government of India have sanctioned also a further sum of Rs 28,950/- for the Association for the purchase of Machinery and Equipments in their order 10 Cof Ind (6) 52 dated 31-3-52. The Association has not yet drawn these sums pending the actual commenceme of the work.

B

5/- Particulars regarding the items of ~~the~~ work proposed to be taken up have been furnished already by the Secretary of the Association in his estimated budget a copy of which has been forwarded to me. The Association ~~sugg-~~ requests that the State Government may also give some financial assistance. To what extent such assistance is necessary cannot now be assessed correctly. I find that with trained personnel and sufficient funds the Association can do useful work in the development of village Industry.

C

I and the cost involved

Yours faithfully

For Collector.

REPORT

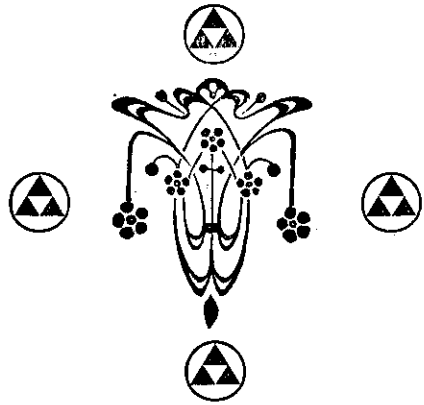
ON THE WORKING OF THE

SOUTH KANARA
VILLAGE INDUSTRIES' ASSOCIATION

(REGD.)

MANGALORE

(A. I. S. A. CERTIFIED)



FOR THE PERIOD ENDING

30TH JUNE 1950.

30

REPORT

On the working of the

South Kanara Village Industries' Association
(Regd.) Mangalore,

For the period ending 30th June 1950.

Introduction:

The Association has completed the Seventh year its working. During this period, the Association has been able to create an atmosphere for Khadi work in certain parts of the district. No financial aid was received from either the Government or Public bodies. The association has been depending upon the public support for its finances which contributes to its growth. The working Capital of the Sangha should be increased to expand its activities. The figures speak for the progress of work. If funds are collected in a larger measure, other Village Industries along with Khadi can be undertaken by the centres.

Creation of trained workers is to be undertaken to expand the work which depends upon trained workers. A district training centre for this purpose is an immediate necessity. Necessary men and materials are also needed for this purpose.

The new orientation of Khadi work requires that a Samagra grama seva centre should be started to disseminate the all round village uplift activities; Such a model centre will serve the purpose of giving guidance to village workers.

"Gandhi Seva Centre Moodbidri"

The association purchased nine acres of land in Moodbidri where this centre is opened. There is a Khadi weaving section and Goshala in it. In the farming section food and fodder crops are raised and about six acres of land is brought under cultivation. Sea Island cotton and several types of grasses like Gunea, Napier, Kambu-Napier, Australion are grown and hay is prepared from them. There is a good breeding bull maintained for stud purposes. Funds are necessary to erect the necessary buildings in this centre to locate several village Industries' sections.

Weaving classes at Buntwal Centre:

Training classes for local women of agricultural Communities were opened and Rs. 2325—4—10 were spent for training 24 women two boys in weaving; 15 women got their training in Dubta making. And 12 girls got their training in Carding in yuddha Pinjan.

Spinning and Khadi Production Centres:

The Buntval Khadi Centre is working in weaving the yarn of self-sufficiency spinners of the district. This centre is situated on the banks of the river Nethravati in the midst of villagers. There is a seed farm of Sea Island cotton in front of the centre. The seeds are distributed to the villages in all the taluks. Excellent type of Cotton

was picked during the years under report and Superior Khadi was manufactured.

Kasargod Khadi Centre- There is a Khadi Production Centre and a Khadi Bhandar at Kasargod. A parishramalaya was opened at a village called Chalya to teach spinning to Moplah women. They are taught carding also.

Kanhangad Centre: The Spinners of this Centre are producing standard yarn The local weavers weave this yarn.

Hiriadka Spinning Centre: This is a good spinning Centre in Udipi Taluk. Although the Parkal weaving Centre is within four miles from this place, the Weavers are not trained in Khadi weaving.

Brahmavar Centre: This is another Centre in Udipi Taluk. Spinning has been slowly spreading to the neighbouring villages. Within one and a half mile from this village there is a place called 'Salikere' which is a weaver's colony. But the weavers here are not trained in Khadi weaving.

Katapadi Centre: Two looms were working in this village for Khadi production. Work was stopped as the weaver family migrated from this village.

Mangalore Centre: There are forty labour spinners nere. Besides this there are several self sufficiency spinners. Their yarn is got woven for them by the association.

Moolky Spinning Centre: There are 70 spinners in

this centre. There are quite a good number of weavers in the neighbourhood. There is good scope for development.

Padubidri Khadi Centre: This Centre was brought under the administration of this association. Standard yarn is produced here; good Khadi is manufactured in this Centre.

Nileshwar Khadi Centre: This was a heavy production Centre handed over to government under their intensive Khadi Scheme.

Panemangalore Spinning Centre: There are seventy five Charkas working; good yarn is produced here. Charkas have spread to several villages. This is an area of good political consciousness in the district and there are a good number of national workers. There is much scope for this industry to spread.

Khadi and Yarn Production, Comparative figures

Year	Square Yard	Value In Rupees	Hanks Labour Spinners	S. S. Yarn Spinner's Hanks
1943–44	2606	2912	3423	5716
1944–45	3932	3932	7441	4685
1945–46	27929	37843	19260	9915
1946–47	27451	43582	37544	11000
1947–48	15317	31134	43565	5516
1948–49	11825	23926	20940	2708
1949–50	6696	15163	12258	5505
	95756	158492	144431	45045

Khadi Sales (In Bhandars)

1943—44	...	...	Rs. 29002
1944—45	...	...	Rs. 34260
1945—46	...	...	Rs. 31826
1946—47	...	...	Rs. 59416
1947—48	...	...	Rs. 37363
1948—49	...	...	Rs. 34258
1949—50	...	...	Rs. 39056
			Rs. 265181

The total wages distributed to the artisans amounted to Rs. 81893—14—7,

Sales Department: The sales section of the Sangha is administered by the Central Khadi Bhandar at Mangalore. There is a Khadi Bhandar at Kasargod which is a branch of the Central Bhandar There are agencies working at Moolky, Buntval & Padubidri.

Charka Section: Local Carpenters are trained in making Charkas at Buntval Centre. Box, Kisan and Vertical Charkas are manufactured here. Gins yuddha Pinjan, Carding & Slivering sets, Lafeta and Square fly-shuttle looms and their parts are also manufactured in this section.

Doubling the Yarn: "Dubta" making is given to women who learn weaving. Weak yarn is doubled and sent for weaving on the centre's looms, at Buntval. The women after getting their training, in this section, are promoted to the weaving operations.

Sea Island Cotton: There is a seed farm at Buntval Centre. The Cotton picked in this farm is used for demonstrating the "Thunai" System of Carding and the Seeds are distributed to the Villages. Being a long staple cotton it responds to this system of Carding exceedingly well. Superior fabricks of good texture can be produced out of this cotton,

Self-Sufficiency Work: The Scheme of Self-Sufficiency of cloth is gaining ground steadily. 8273 hanks were got woven and 1214 Square yards of Khadi was manufactured for self-sufficiency Spinners. They are given Rs. 227-10-0 as rebate in weaving charges.

Opinion of Visitors to Centres

Dr. K. N. Alva, President, South Kanara District Congress Committee writes:—"Visited the Buntval Centre. It is heartening and encouraging to find this institution growing in so short a time. I expect that the message of Mahatmaji spreads to all corners of this district through this Centre. I wish success to the Centre."

Sri Venkatesha Magadi, General Secretary, Karnatak Provincial Congress Committee writes:—"Today we visited the Buntval Centre. The efforts of Sri Narayana Rao and his Co. workers in carrying on this self-less work is praise worthy. It is the silent activities of Constructive workers which form the foundation of our uplift. I pray, God may grant His blessings to such workers."

Sri. Nijalingappa, President, K. P. C. C. and member of the Working Committee of the Indian National Congress writes:—"I am extremely glad to see the Khadi

production work carried on in Buntval and Padubidri Centres of the S. K. V. I. A. There is great need for such Centres. The efforts of Sri Narayana Rao in growing Cotton and making Khadi Production, self-contained, is praise-worthy. I wish success to the S. K. V. I. A.; and expect greater Co-operation from the people."

Hon. Sri. R. R. Diwakar, Minister of State, Government of India writes:—"Visited Buntval Centre. I was impressed by the Constructive work carried on herein a beautiful atmosphere. I saw the experimental Seed farm of Sea Island Cotton. It was a second year's crop. I wish the agricultural department take up the experiment to grow this long Staple Cotton successfully."

Dev 32564 Dy IV 22 Mar 52

Special. Dev. Secy.

Enclosed is an application from the South Kanara Village Industries' Association, Mangalore, to the Ministry of Food and Agriculture, New Delhi, for financial help for their scheme to start an Agricultural Training Centre. This seems to be a desirable scheme which deserves all help from the Govt. Since we do not have the necessary funds for giving financial assistance, we may forward the application immediately to the Govt. of India with our recommendation.

R.W.D.

1. The papers referred to at A above relate to the financial assistance sought from the D.G.I.D. by the Asst. for the development of Cottage Industries in S. Kanara Dist. The D.I.E.C. has been consulted whether the project may be forwarded with the support of the Govt. and his reply is awaited. The main file has been sent to Jt. Sec. (Ro) this day w.r.t. a requisition received from the P.A. to Jt. Sec. (Ro).

2. The Scheme in question relates to the financial assistance for starting an

ASSISTANT SECRETARY TO GOVERNMENT 22 MAR 1952 22081 RURAL WELFARE DEPARTMENT

2

a Rural Training Centre. From a perusal of the syllabus enclosed to the letter it will be observed that the Training Centre is intended to impart instructions in the matter of an ~~xxxxxxx~~ allround development of village life. The syllabus includes provision for training in Agriculture, Animal Husbandry, ~~Horti~~ Horticulture, Agricultural Engineering and Irrigation, Allied occupations, Co-operative and Social Welfare services, Social Welfare etc. The statement of cost furnished indicate a non-recurring expre. of Rs.2,14,300. and a recurring expre. of Establishment Rs.~~50~~,040 The entire Scheme is to be run under private auspices.

'A' and 'B' on p. 15 ~~ca~~ to

Submitted that there is separately a proposal under consideration in this Department for starting a Central Institute of Rural Training with more or less similar syllabus for training a batch of field workers in the fundamental principles of Rural Reconstruction who, in their turn, are expected to impart training to the villagers in the matter of Rural Reconstruction. The matter has, however, been pending for nearly 3 years without a final decision having been reached. (The connected file is now with the H.C.M.).

this contemplated training to those who train Rural workers

It may, however, be pointed out in this connection that the question of starting a Janata College in this State for giving training to Rural workers is separately under consideration of the Education Deptt. It is also understood that in connection therewith the Education Secretary had been to New Delhi for discussing matters with the Govt. of India. The outcome of the discussions is not known. The case may, therefore, be sent to the Edn. Deptt. for remarks and for obtaining orders in circulation, if necessary in view of the fact that the proposals under consideration in that Deptt. appear to be anologous to the one contemplated by the South Kanara Village Industries Association, Mangalore, For orders.

RURAL WELFARE DEPARTMENT

RURAL WELFARE DEPARTMENT: I

The Minutes of H.M.(Agri) on p.17 above and the subsequent notes thereunder from pp.17-19 above may be perused. This file deals with an application from th South Kanara Village Industries Association, Mangalore to the Government of India for starting a Rural Traini Centre at an estimated cost of Rs.2,14,300/- non-recurr and Rs.50,040/- recurring. The entire scheme is to be

run under private auspices. The Association has preferred its application through this Government for financial assistance from the Government of India. This Department consider that there is no case for recommending this proposal as the expenditure involved is heavy and the institution is to be run by a private agency. This Government have also similar schemes on hand which have not yet fructifiec The Education Secretary has agreed with the views of this Department. In the result, there seems to be no case for forwarding the application to the Government of Indi The case may be circulated to H.M. (Agri) through the (R.D.)

7.V.52

H+M (R.W.)

8/5 H M (H)

R.W.(I).
From the Collr. of South Kanara, D.Dis.10530/52
dated 6-6-1952.

Please see the letter from the Collr. of South Kanara on page 27 c.f. with reference to the Government Memo. on page 17 c.f. The Village Industries Association, Mangalore S.Kanara Dt. sent an application dated 18-3-52 for financial aid from the Govt. of India for starting a Rural Training Centre at an estimated cost of Rs.2,14,300/- non-recurring and Rs.50,040/- recurring. The application was addressed to the Govt. of India through this Govt. This Dept. examined the case and considered that there was no case for recommending this proposal, as the expenditure involved was heavy and as the institution was run by a private agency. When the file went in circulation, the previous M(Agri.) now M(Health) minuted as follows:

> "A report may be called for from the Collector before taking a decision regarding the recommendation to be made by this Govt."

(Id) A.B.S./3-4.

A report was accordingly called for from the Collector of S.Kanara. Please see his report on page 27 c.f. The Collr. of S.Kanara has reported that an extent of Ac.21-20 in the belt area of the Mangalore Municipality was recently alienated to the S.K.V.I. Association in G.O.Ms.No.2887 Revenue dated 3-11-1951 and that the Assn. intends to utilise the plot for putting up buildings for training workers and for constructing workshops and sheds for cottage industries. The Collr. considers that large funds and highly trained personnel would be required to carry out the scheme successfully. He has therefore indicated that a beginning may be made on a small scale which can be developed gradually. It is also stated that the Govt. of India have since sanctioned a subsidy of Rs.30,000/- in their order dated 26-3-1952 and a further sum of Rs.28,950/- in their order dated 31-3-1952 to the Assn. Thus, in all a grant of Rs.58,950/- has been sanctioned by the Govt. of India to the Assn. since it has sent its application. The funds have not yet been drawn by the Assn., pending actual commencement of the work. The Assn., is now said to have requested for financial assistance from the State Govt. also. Submitted that no

39790

such request has been received in this Dept. The Collr. has however stated that the extent of further assistance necessary for the Assn. cannot be assessed correctly at present. The Collr., has not made any categorical recommendations. The Assn., already seems to have got a grant of Rs.58,950 from the Govt. of India. For orders whether in the circumstances, it will be considered not necessary to forward the application of the Assn., on page 1 c.f. to the Govt. of India.

The case may be circulated to the M(Health) with reference to his minutes on p.4 ante and on p.19 c.f., through M(R.W.)

Thro' R.W.II.
39790

A alone

There is no need now to forward the application to the Govt. of India as the Association has already received grant from Govt. of India.
